---

11:15 - 11:45 am

**De-icers: Comparing Toxicity & Effectiveness. Are Liquid De-Icers the Green Answer?**

The current shortage of rock salt has sent property owners scrambling to find an effective, yet environmentally sound, substitute. Available options will be discussed.

*Presented by: Terry Thompson, Curb Appeal Property Services, Inc.*

12:00 - 12:45 pm

**Concrete Leveling: Helping Reduce Your Corporate Carbon Footprint**

Concrete leveling is an environmentally responsible alternative to concrete replacement. Reduce cost, downtime and resource consumption with this unique and effective hydraulic pressure injection application.

*Presented by: Peter Easton, A-1 Concrete Leveling & Foundation Repair*

1:00 - 1:30 pm

**Energy Efficient Lighting Upgrades**

Dynamics of energy efficient lighting upgrades, including technologies and incentives.

*Presented by: Tarek El-Gohary, SmartWatt Energy*

1:45 - 2:15 pm

**Spray Foam Roofs: Today’s “Green” Roofing**

Learn how a foam roofing system can provide immediate energy savings for a building owner. Overview of application procedure, acceptable substrates, code approvals. Come see why over 7 million square feet of foam roofing has been installed in WNY.

*Presented by: Larry Ash, RIBCO, Inc.*

2:30 - 3:30 pm

**Web Based Work Orders and Preventative Maintenance**

This intuitive and adaptable facility maintenance management system will significantly improve sustainability, productivity, work flow, cost control, accountability, and documentation.

*Presented by: Tim Thomas, Que Centre*

3:45 - 4:15 pm

**Recycling 101**

The New York State Association for Reduction, Reuse and Recycling (NYSAR) would like to share some key elements to starting any recycling program for a business, schools, organization or your home.

*Presented by: Kimie Romeo, Environmental Coordinator, SunnKing Inc. & NYSAR3 Representative*
